SHUBHAM KUMAR

☎ +91 8210143829 ✉ mailfuture.sde@gmail.com LinkedIn Github

Professional Summary

B.Tech Computer Science Engineering student with expertise in full-stack development, data structures, algorithms, and object-oriented programming. Experienced in building scalable web applications, REST APIs, and data-driven solutions with strong problem-solving and software engineering skills.

Education

S'O'A UNIVERSITY / ITER, Bhubaneswar **2024 – 2028**
B.Tech in Computer Science Engineering 8.34/10 CGPA

Sun Shine Residential Public School, Patna **2022 – 2024**
Higher Secondary School

Experience

AI & Cloud Computing Intern — Edunet Foundation | **IBM** SkillsBuild Program 2026 | Remote

Completed an industry-focused internship in Artificial Intelligence and Cloud Computing through IBM SkillsBuild program, covering AI fundamentals, cloud concepts, and emerging technologies. Developed foundational knowledge of AI workflows, cloud technologies, data handling, and AI-powered applications through structured technical training. Strengthened problem-solving, technical analysis, and application of emerging technologies.

Data Analytics Intern — Edunet Foundation & **VOIS** 2026 | Remote

Analyzed and interpreted structured datasets to identify trends, patterns, relationships, and actionable insights for data-driven decision-making. Performed data cleaning, preprocessing, transformation, and validation to improve data quality and analytical accuracy. Leveraged Microsoft Excel, statistical analysis and applied descriptive statistics and analytical methods to evaluate data, derive meaningful insights, and support practical business use cases.

Technical Skills

Programming Languages: Java, Python, JavaScript
Frontend: React.js, HTML5, CSS3
Backend & APIs: Node.js, Express.js, REST APIs
Databases: MongoDB, DBMS, Database Design
Data Analytics: Microsoft Excel, Data Cleaning, Data Preprocessing, Data Analysis, Data Visualization, Descriptive Statistics, Inferential Statistics
AI & Cloud: Artificial Intelligence Fundamentals, AI Workflows, Cloud Computing Fundamentals, AI-Powered Applications, Data Handling
Tools: Git, GitHub, VS Code, Eclipse,
Core Concepts: OOPs, Software Design, Flowchart Design, System Design, Risk Management, Financial Modeling.

Projects

Credit Risk Analysis Dashboard

Tech Stack: React.js, Chart.js, javaScript(ES6+), HTML5, CSS3, Vercel

Built a credit risk analytics dashboard in React.js visualizing $4.82B portfolio exposure with Chart.js. Features KPI metrics, ECL trend analysis, risk grade distribution, sector concentration, and counterparty exposure tables with PD/LGD metrices.

URL Shortener

Tech Stack: React.js, Node.js, Express.js, MongoDB, HTML5, CSS3, Vercel

Developed a full-stack URL shortening application with RESTful APIs, unique short-code generation, instant redirection, and persistent MongoDB storage. Built a responsive React.js frontend featuring real-time link generation, input validation. Implemented efficient backend services using Node.js and Express.js, and database operations.

Smart Expense Tracker AI

Tech Stack: React.js, Node.js, MongoDB, Vercel

Developed a full stack expense tracking application with budgeting and analytics features. Implemented AI-based spending insights and category-wise expense analysis. Built responsive dashboards with real-time expense monitoring and graphical reports. Integrated React frontend with Node.js APIs and MongoDB database.

CERTIFICATIONS

- **ORACLE** Certified Agentic AI Foundation Assosiate
- **ANTHROPIC** Building with the Claude API
- **IBM** Certified Data Analyst (Earned Six Microcredentials)
- **WALMART** Certified Advanced Software Engineer
- **JPMORGAN** Certified Quantitative Researcher
- **MICROSOFT** Azure Computer Vision Solutions, Threat Protection with Microsoft Defender XDR
